# Town of New Durham, NH Natural Resources Inventory

## WILDLIFE ACTION PLAN

### Legend

- Town Boundaries
- Tax Map Parcels

Roads
- State
- Local
- Private
- Not Maintained

- Streams & Rivers
- Lakes & Ponds
- Existing Conservation Lands
- Grasslands
- Lowland Spruce-Fir
- Marshes
- Northern Hardwood Conifer
- Peatlands
- Hemlock-Hardwood-Pine

Protection Priority
- Highest Ranked Habitat in NH
- Highest Ranked Habitat in Biological Region*
- Supporting Landscapes

**Biological Region = Sebago-Ossipee Hills and Plains*

The New Hampshire Wildlife Action Plan provides decision-makers with important tools for restoring and maintaining critical habitats and populations of the state's species of conservation and management concern. This map shows New Durham's wildlife habitat types identified in the plan. The habitat protection priority is ranked as follows: Tier 1 - Habitats of highest relative rank by ecological condition in New Hampshire; Tier 2 - Habitats of highest relative rank by ecological condition in biological region; and Tier 3 - Supporting landscapes.
